SUBJECT INDEX TO VOLUME 41

	PAGE
Beckman DU flame spectrophotometer, A modification for the	134
Beckman DU flame spectrophotometer, An air-jet stirrer for the	136
Blade cultivator, Chisel attachments for the	81
Canadian soils, Potassium-supplying power of some	196
Chemical characteristics of a solonetzic soil sequence at Vegreville, Alberta, with regard to possible amelioration, Some	24
Conservation with tillage machines, Surface trash	99
Effect of fertilizers on emergence of cereal grains, flax and rape, The	89
Efficiency of phosphatic fertilizers of varying water-solubility	68
Electrical resistance blocks in soil, Effects of wetting and drying on readings of	250
Fall soil-moisture level, Depth of freezing and spring run-off as related to	115
Fertilizers applied with the seed on the emergence of flax, Injurious effects of	35
Frost heaving in soils, Alternate freezing and thawing not a requirement for	160
Genetic soil types in the Newdale Soil Association of Manitoba, The characteristics of different	124
Grey Wooded soils developed from glacial till, Mineralogical composition of some	228
Influence of base saturation and fertility treatments on yield and cation composition of crops grown on two British Columbia soils high in organic matter, The I. Oats	52
Mineralogy of the Queen's loam and Queen's clay loam soils of eastern New Brunswick	147
Mineralogy of Champlain Sea sediments and a Rideau Clay soil profile	169
Moisture storage and nitrate accumulation in soil, as related to wheat yields on four cropping sequences, A study of	5
Neutron surface moisture probe, The volume of influence of a	253
Per cent moisture, Calculating, with a desk calculator	258
Poorly drained soils of the lower Frazer Valley, British Columbia, Yellow mottles in some	218
Rapid vacuum filtration, An aid for	260
Saline soil, Effects of run-off prevention and leaching water on	207
Sampling in permafrost, Improved soil borer for	138
Semi-automatic dispenser for water in the greenhouse, A	248
Soil moisture tensions on grass and legume species, Effects of different	16
Soil fertility experiments, Use of a soil conditioner to increase the precision of	86
Soil aggregations, The effect of freezing-thawing and wetting-drying cycles on	182
Soil classification, Use of soil cores in	241
Soil bulk density, The relation of, to the incidence of phytophthora root and stalk rot of soybeans	247
Solonetzic soil complex in east-central Alberta, Suitability for irrigation of a	188
Spring wheat, Effect of soil type, soil moisture, and nitrogen fertilizer on the growth of	44
Sulphur status of three Quebec soils, Aspects of the	141
Sulphur deficiency, Sulphur fractions of legumes as indicators of	164
Water, Consumptive use of, by forage crops in the upper Kootenay River Valley	1
